**ONLINE**

1. This fee is paid in equal monthly installments by direct debit from the Fund's Cash Account. If you choose to wind up or transfer your SMSF in the first 12 months of your agreement with us you will be required to pay the balance of 12 months' administration fees. This is determined by calculating the number of months in the 12 month period multiplied by the administration fee for the month immediately prior to wind up or transfer of the fund. After month 12, there is no fee. The annual pension fee will apply in respect of the year of pension commencement and all subsequent full or part years in which a pension is paid from the Fund. We reserve the right to amend and quote a unique Fund fee where extraordinary issues exist.
2. This fee is applicable where data feeds are received by Us for 100% of Fund assets for the full Financial Year.
3. This service is automatically combines contributions made during the financial year with an existing pension account effective 30 June. This is applicable where a member is receiving a Transition to Retirement or Account Based Pension while continuing to make contributions to the Fund. The fee is per individual member and will cease when the member reaches age 75 or when it is confirmed that there are no further contributions being made.
4. Non standard assets include but are not limited to direct real property, collectables, private trust units, unlisted public company shares, private company shares and agriculture investments. The fee is payable on initial purchase or transfer into the Fund.
5. These fees are in addition to the applicable Compliance Administration fee for the relevant Financial Year.

The fees quoted in this Schedule include the Goods and Services Tax (GST) and are based on the administration requirements and fees charged by external providers known at the date of this Schedule.

## **FEE SCHEDULE**

**EFFECTIVE 10 OCTOBER 2017**
